Kite Tasks

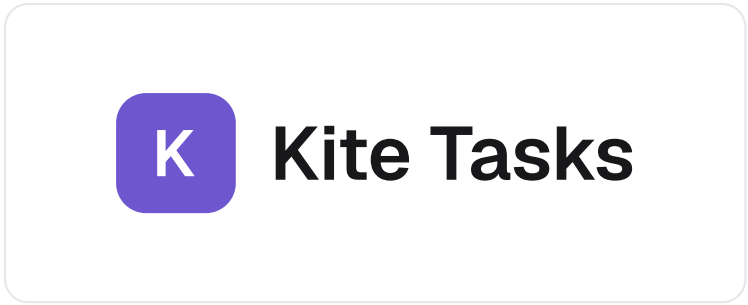

BRAND GUIDE

Team tasks, calmly organised.

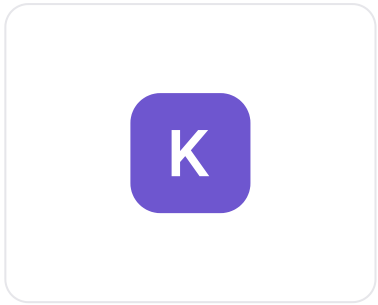

Kite Tasks is a task manager for teams of 5 to 30: spaces, projects and tasks in List, Board and Calendar views, with daily standups, reports and customer feedback. The interface is bilingual, Mongolian first and English second. The brand is quiet and precise: zinc greys carry the layout and one violet accent marks what matters.

LOGO

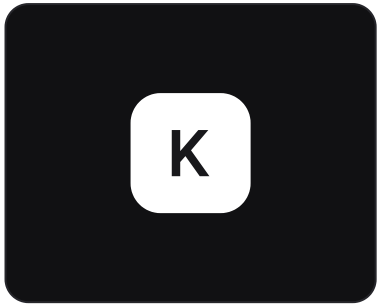

The K tile and the wordmark

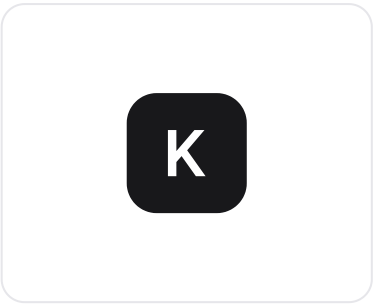

Main logo: wordmark on light

Symbol: K tile

Mono on dark

Mono on light

Wordmark on dark (#111113)

The symbol is a violet (#6E56CF) square with 25% rounded corners and a white Geist SemiBold “K”.

Keep clear space of half a tile around the logo. Minimum tile size 16 px.

The wordmark is the tile plus “Kite Tasks” in Geist SemiBold, gap one third of the tile.

No gradients, glows, outlines, rotation or recolouring other than the mono versions.

TYPOGRAPHY

Geist and Geist Mono

Display	Good morning, Anu	Geist 600 · 28/32
Page heading	My Tasks	Geist 600 · 24/32
Title	Миний даалгавруud	Geist 600 · 20/28
Body	Redesign the onboarding checklist	Geist 400 · 14/20
Secondary	Create task	Geist 500 · 13/18
Meta	10-р сарын 14 · Oct 14	Geist 500 · 12/16
Task key	APP-142	Geist Mono 500 · 12/16

Weights 400, 500, 600 only. Headings 600 with –0.01em tracking from 20 px. Mongolian Cyrillic and Latin share the same family.

APP-142

Redesign onboarding checklist

In Review · Due Oct 14 · Size M

+ New task

Radii: 6 chips · 8 buttons and inputs · 10 cards · 12 panels · 14 modals. Spacing on a 4/8 px grid, 1 px borders, soft shadows.

RULES

How Kite Tasks looks and sounds

1. Calm, neutral interface: zinc greys carry the layout; Kite violet marks the one thing that matters on screen.
2. Use the accent sparingly: one primary action, the active item, focus. Never as a large background behind body text.
3. Typography is Geist only, with Geist Mono for task keys such as APP-142. Weights 400, 500 and 600.
4. Mongolian is the default language; every on-screen line has an English twin. Mongolian dates read “10-р сарын 14”, English “Oct 14”.
5. Status colours mean status only: amber in progress, violet in review, green done, rose on hold, red overdue.
6. Text keeps WCAG AA contrast: accent text uses #6C55CC on light and #B4A5FF on dark.
7. Light and dark both exist: dark mode uses #111113 page, #1F1F23 surfaces, #EDEDEF text.
8. Plenty of space, 1 px borders and soft shadows. No gradients, glows, stock photos or decorative illustration behind content.
9. Voice: short, plain and helpful. Say what happened and what to do next; no exclamation marks or jokes in the product.
10. Show the real product: List, Board, Calendar, My Tasks, Standup and Reports screens rather than abstract imagery.
